

Brattle Works has been hand crafting traditional garden fences, picket fences, garden arbors, gates, pergolas, trellis, privacy lattices, and planter boxes throughout America's homes and gardens since 1987. We also specializes in custom orders and replicas of heritage pieces. All Brattle Works products are made from high quality western red cedar so that our products will stand up against the weather and stay beautiful longer.

Need Project Design Help, Materials List, or a Quote?

Once you have determined the style of Arbor, Pergola, Gate, or Fencing that meets your needs, our sales associates will be happy to assist you with your project design details. When contacting us, you should have overall measurements of your project and we can assist with details such as heights, widths, or lengths and ordering quantities.

A list of various sections

Fence A = 20' (shares corner with B and C)

Fence B = 13' (goes down a hill)

Gate = 4' (centered in A)

Fence C = 3' (ends at house)

A simple diagram

You can create your own arrangement by mixing and matching from the standard sizes or creating a custom design that will become the defining piece of your yard for years to come.

Staining

All BrattleWorks' manufactured products are available stained with Benjamin Moore exterior solid color acrylic stain or just primed with Zinnsser Bulls Eye 1-2-3. There is a staining charge for Brattle Works White, Evergreen, or primed orders. Custom color staining is available, please call for details.

Shipping

Call for shipping details.

All products available in custom sizes, contact us for details!
